

Jacob C. Ruff

1220 Cherokee Dr.
Richardson, TX, 75080

(214) - 984 - 4237
jakeruff99@gmail.com

Education

Texas A&M University, College Station, TX GPA 4.0/4.0
Graduating: May 2022
In progress, Bachelor of Science - Electrical Engineering
Minor in Computer Science

Employment

Johns Hopkins Applied Physics Lab, Laurel Maryland May 2020 - December 2020
Digital Signal Processing Intern
Adapted model of received vs transmitted radio symbol rate to linear splines for real time conversion
Improved Simulink model of a radio's carrier and code loops making it HDL synthesizable
Produced a tutorial for installing and compiling radio software

Paragon Innovations, Richardson Texas Sept 2017 - Dec 2017, Dec 2018
Engineering Intern
Verified circuit boards functionality and assured there was no electric shorting.
Purchased inventory based on project and individual engineers' needs
Assembled various prototype boards and products

University of Texas at Dallas, Richardson, TX June 2017 - August 2017
High School Intern with the Science, Engineering and Education Center
Led creation of instructional manuals for teaching kids how to program
Assisted in instructing beginner's Python class.

Activities

Ultrasound Research, Texas A&M University May 2021 - Present
Undergraduate Researcher
Investigated feasibility of speckle decorrelation curves for 3D reconstructions from freehand probe
Created gelatin agar Ultrasound phantom containing a suspended fishing line
Simulated speckle and phantoms using Field II in Matlab
Modeling decorrelation curves for simulations and experimental data sets in Matlab

Grader for ECEN 303 and ECEN 412, College Station TX August 2021 - Present
ECEN Tutor
Covered statistics topics and problems for 303 Students
Graded and offered explanations over 412 Ultrasound homeworks

HowdyHack Hackathon, College Station TX Sept 2019
Team Leader
Wrote Arduino C code that handled serial input communicated via Bluetooth
Controlled voltage output from Arduino to circuit

Graduate Coursework

ECEN 646 Probability for Information Science

Undergraduate Coursework

CSCE 221 Data Structures and Algorithms	ECEN 447 Digital Image Processing
ECEN 412 Ultrasound Imaging	ECEN 455 Digital Communications
ECEN 455 Applications of Electromagnetic Theory	

Skills

Proficient with Matlab, Python, C, C++ , Latex, Linux
